**AN INTERNATIONALLY RENOWNED UNIVERSITY  
ON AN ISLAND OF INFINITE TREASURES**

“ I am glad that I chose to study at the University of Malta because it has a long history of several hundred years and it is a prestigious institution. Since I'm a student of liberal arts, I believe that studying in a University with an 'outstanding past' can lead me to a 'bright future' .

Living in Malta and experiencing the beauty of the Mediterranean Sea and this island's unique scenery is beyond one's imagination.

“ I chose to participate in the exchange programme at the University of Malta for a full academic year because English is the language of instruction. The lectures are interactive, lively, and engaging. I like Malta because of its beautiful sunny weather, its clear seas, and the friendly attitude of the locals.

On visiting Hagar Qim and Mnajdra Temples in Malta, I was fascinated to see the oldest buildings in Europe, which are even older than the Pyramids of Egypt, and for me it was an experience of a lifetime.

“ I chose to study at the University of Malta for a year because I was interested to learn more about Malta since it is an island nation like Japan and because of its multi-cultural and multi-lingual facets.

The University of Malta offers a wide range of opportunities in diverse areas of study and offers many fascinating courses. I find that the lectures at the University of Malta have taught me to appreciate life in Malta and in Europe as a whole.

”

“ For me, the University of Malta offers the best opportunities to study abroad. As a German economics student, my main aim is to improve my knowledge of the English Language. Besides, the University offers a wide range of courses so I can choose exactly those specialised courses I need.

Additionally, Malta is an interesting country where you can visit many sites, museums and historical places. To get to know a different place and simultaneously study well, the University of Malta for me was the best choice.
