Paperwork and Procedures for International Students

We will open a desk for international students in the Cafeteria on August 24 (10:00 a.m. – 4:00 p.m.) to assist with all procedures for your residence record and national health insurance. Please visit the desk with your passport and residence card.

- **National Health Insurance**

National Health Insurance is a mandatory insurance program in Japan, which you must join even if you already have your own health insurance coverage. With this insurance, 70% of your medical costs (visits to clinics, medications, hospitalizations, etc.) will be covered. Student Affairs will complete the procedure at the municipal office on your behalf.

- **Resident Registration**

A residence card will be issued to foreign nationals who enter Japan through Narita, Haneda, Chubu, or Kansai International Airport under a student visa. All residence card holders must register their address at a municipal office within 14 days after arrival.

If you enter Japan through airports other than the above, a note “A residence card will be issued later” (lower right) will be stamped next to the landing verification seal (lower left) on your passport. In this case, your residence card will be directly mailed to you about a week after registering your address at the municipal office.

Student Affairs will assist you with this procedure at the check-in desk. For further information on residence card, please visit the following website:

http://www.immi-moj.go.jp/newimmiact_1/en/point_1-2.html

For current residents in Japan

If you currently reside in Japan but not in Akita city, you should move your resident registration to Akita city. In order to complete this, you must get a certified copy of your moving-out record at the municipal office of your current residence. You are encouraged to do this BEFORE coming to Akita.

If you made a resident registration in Japan in or after October 2015, you are automatically assigned a “My Number,” which is a unique social security number in Japan. If you have either of the two “My Number” cards (right), please make sure to bring it with you when you register

your residency in Akita city.

- **Work Permit**

Students who have a ‘College Student’ visa are allowed to work part-time for up to 28 hours per week during a semester period and eight hours per day during a long break period (summer break, winter and spring break). In order to be eligible to work, you must obtain a work permit (officially called ‘Permission to Engage in Activity other than that Permitted under the Status of Residence Previously Granted.’) beforehand. If this is your first entry into Japan, you can apply for a work permit at the airport of your arrival. After this point, you can still obtain a work permit, but will have to go to the immigration bureau in downtown Akita. For further information on work permits, please visit the following website: http://www.immi-moj.go.jp/newimmiact_1/en/port-city.html
