I Admission policy

(1) Mission Statement

With its innovative international liberal arts educational philosophy, Akita International University aspires to prepare students to be leaders in global society.

The International Liberal Arts education at AIU enables students to acquire a broad scope of knowledge and sharpen analytical thinking skills while gaining insight into various critical issues that are confronting the world and develop in them a global outlook, and equip them with the ability to communicate effectively in English and other languages.

AIU's International Liberal Arts education fosters self-realization; it opens minds, instills the will to act and develops a capacity to rise to the complex challenges of the times with integrity and discipline. AIU students learn to commit themselves to serving their local communities, their countries, and the world.

(2) Characteristics

- From the perspective of an emphasis on education, we widely recruit faculty members with enthusiasm and capability for education from all over the world, regardless of nationality, age, or gender; all classes are conducted in English by the professors, about half of whom are foreigners.
- In order to acquire international vision and sense through cross-cultural experience, our students are obliged to study abroad for one year.
In conjunction with this, a cosmopolitan educational environment and campus life are offered where foreign students gather from across the globe.
- As a university open to the world based on constant exchanges with the cross-cultural community, we deepen cooperation with universities/colleges around the world including 200 partner universities/colleges in 51 countries/regions (as of July, 2022).
- As a select few, our students are provided a whole person education by, for example, everyone being obliged to live in a dormitory for at least one year after admission.
- Akita International University is an ambitious university that gives the highest priority to educational power based on application of not only fixed-term system but also tenure system.

(3) Future Students

At Akita International University, we want students who share our philosophy:

Successful applicants should be equipped with:

- A balanced basic academic competency across the broad fields of humanities, the natural and social sciences, as well as logical, critical and creative thinking skills, and an outstanding ability or experience in specific areas that they are enthusiastic about further developing within the scope of their learning.
- A strong interest and an inquiring mind toward global affairs including the nature of diverse cultures, languages, history and societies of the world based on their

experiences in having studied abroad or participated in various international activities in and out of their countries.

- A strong desire to gain practical skills of foreign languages (especially English) and knowledge from a broad range of liberal-arts subjects.

Quick Facts

As of Apr. 1, 2021

Established:	April, 2004
English Name:	Akita International University (AIU)
Japanese Name:	国際教養大学 (Kokusai Kyoyo Daigaku)
Location:	See AIU on Google Maps 
Accreditation:	AIU is a four-year undergraduate college with a graduate school, both of which are accredited by Japan University Accreditation Association, an accreditation organization designated by Ministry of Education, Culture, Sports, Science and Technology - Japan.

⑥ Basic Information About the University

Only if you are (or were) a student at an overseas university, please contact the university with the following information, and submit the email reply from the university in PDF format.

- Type of degree (e.g., Bachelor's degree/Associate degree)
- Whether the university uses ECTS in its credit system
- Number of credits required for graduation
- Number of credits required in a year
- Number of credits required per semester
- Number of years of study

⑦ Table of Contents of the Textbook

Please submit a PDF file only if you wish to receive credit for language courses.

Credit Approval and Required Years for Graduation

Regardless of a student's year status when transferred, only credits with a grade corresponding to a "C-" or above by AIU standards (at least 70% of maximum credit in course assignments and exams) are transferrable. In addition, the number of credits in a course or courses transferred must be no less than the number of credits of the corresponding AIU course/courses. Maximum number of credits acceptable for transfer to AIU is 30 credits when the instruction of courses was in English and 18 credits for other cases. However, when a student is admitted as a 3rd year transfer student and has already earned 30 credits or more at a foreign university, the study abroad requirement is considered sufficient, and in this case, the maximum number of acceptable credits for transfer will be 60 and courses transferred must match the content of existing AIU courses. Course requirements not satisfied by transferred credits must be completed by courses taken at AIU. If 60 credits are approved for transfer, then the student will be admitted with a Junior status. In other cases, the student will be admitted with a Freshman or Sophomore status.

The transfer of credit is examined and approved after enrollment. Even if a student is admitted as a 2nd or 3rd year transfer student, the student's class status might be a freshman or sophomore due to the potential of credits not receiving approval.

Therefore, please make sure to receive confirmation from AIU before submitting your application.

【Classification of Status of Students at AIU】

Class	Credits Earned
Freshman	28 or lower
Sophomore	29 - 60
Junior	61 - 92
Senior	93 or above

Our campus is a place where learning and living are integrated. Therefore, our learning environment entail classes that focus on discussion and group work, and with mandatory dormitory on campus students sleep and eat within the same facilities in order to further foster self-development. We have re-opened our doors to exchange students from partner universities from around the world since April 2022, allowing for study, extracurricular activities, and living together with international students to commence once again.

Vaccination may also be required for one year of study abroad. For this reason, we ask for your cooperation in vaccinating against the Coronavirus, except in cases where there are special health concerns. We thank you in advance for your cooperation.

In addition, we would like to emphasize that the University takes the utmost consideration to ensure that any infected persons and/or unvaccinated persons do not suffer any potential discrimination or disadvantage.
